

Scotty Then and Now

Scotty is one of the friendliest dogs you'll ever meet. He loves to be around people and he definitely loves attention. His favorite hobbies include hanging at Terwillegar dog park, playing fetch, sticking his head under the fence to spy on the neighbors, and digging large holes everywhere in our back yard. Scotty is one of those dogs who is always on the go - his energy is endless and he lets you know it. When we first got him, in January, he was three months old and only 20 pounds. We weren't really sure how big he was going to get. Now he's grown to be a whopping 70 pounds. He is an awesome addition to our family and we couldn't be happier with him! Thank you for sharing such a great dog with us.
